

Referee Clinic

All new Referees start as ASSISTANT REFEREES on the sideline with flags

We need referees! Every year we ask for volunteers because without a sufficient number of referees we cannot cover all the games during the regular season.

BUT— I don't know how to play soccer...I couldn't possibly referee. The majority of new adults entering the referee program have no experience at all. That's why AYSO provides a comprehensive and complete training program.

BUT— I don't have time. It's a fact, all of us have way too many things to do. On the other hand, is it fair to depend on others to help your child play soccer while you sit and watch? Compared to coaches who have 2 practices and a game every week, the referee has it easy. Referees get to choose the game(s) they wish to referee.

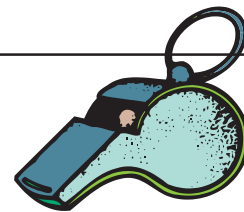

BUT— I don't want to get yelled at, or what if I make a mistake?... Relax. As a new assistant referee, you'll be working with an experienced center and for your first several games, a mentor will run the line with you. There will also be an onsite monitor at the field.

BUT— how many games will I have to do? One, just to see if you like it. Once you get past that one game, we'd like you to do at least six games in our ten week season. All we ask is for you to try it. The majority of referees actually find it exciting and exhilarating--plus its great exercise!

BUT— what about equipment? Region 14 provides the jersey, shorts, socks, whistle and flags. A couple of times during the season, we'll even buy your dinner.

BUT... If we don't get enough referees, we won't be able to offer competitive games in lower division. So get off your "butts" and RSVP today! The kids need you.
